

MediaWiki:Apierror-cannot-async-upload-file

Online version: <https://wiki.advacam.cz/wiki/MediaWiki:Apierror-cannot-async-upload-file>

Contents

The parameters `async` and `file` cannot be combined. If you want asynchronous processing of your uploaded file, first upload it to `stash` (using the `stash` parameter) and then publish the stashed file asynchronously (using `filekey` and `async`).
